A message from Meg

Thank you to all who completed our Tell Them From Me surveys. The surveys are used to capture student, parent and teacher voices, providing reliable evidence for our school to use in identifying strengths and areas for improvement. We appreciate your efforts and continued support.

It was wonderful to see our grandparents at the special celebrations in their honour last Friday. They were very good sports by participating in our trivia quiz, joining their grandchildren to make many formidable teams! Our grandparents are very important members of our school community and we value the strong connections we have with them.

Our learning habit for this fortnight is **Capitalising**. When we practise this habit, we make intelligent use of things that help our learning. We use many different sources to help us learn. This can include other people, books or the internet.

We wish our athletics team the very best of luck for the state athletics carnival next week in Sydney. We are very proud of you all.

Junee Show winners

Well done to our winners at last Saturday's Junee Show. We thank Miss Callow for putting up and taking down our display, which by all accounts looked fabulous!

Assembly

Our next fortnightly Assembly is to be next **Thursday, 7 November** at **2:45pm**. All very welcome.

Sports Report

A reminder that this term all students will be completing four swimming lessons as part of the Sporting Schools program. The funding covers entry, instructors and bus costs for all 4 lessons:

- Friday 22 November 1:30-2:30pm
- Friday 29 November 1:30-2:30pm
- Friday 6 December 1:30-2:30pm
- Tuesday 10 December 1:30-2:30pm

Thank you

A big thank you to Allen Hunt and Simon Muller who came to school on the last day of Term 3 to cook everyone a yummy barbecue lunch! We appreciate you.

Jindabyne Sport and Rec Camp - Years 3-6

A reminder that final payments **MUST** be received by this **Friday 1 November**. Please return any outstanding permission notes as soon as possible.

K-2 Excursion

A reminder to return all permission notes prior to the K-2 excursion to Junee on **Friday 15 November**.

We would appreciate **offers from parents** wishing to come along on the day and/or help **with transport**.

Professional Learning for staff

- Mrs Reynolds and Mrs Ryan will be attending a Financial Health Check workshop at Junee HS on Wednesday 30 October from 12:00-3:00pm.
- Mrs Reynolds and Mrs Ryan will also be attending Gundagai HS on Thursday 31 October from 10:30-11:30am, to start setting up our 2020 budget.

Kindergarten Transition Program

Our transition program commences in Term 4 this **Friday, 1 November**. We look forward to welcoming back our transition students.

Please Note: due to our swimming program falling on the same day as our transition program, we have had to shorten the Kindergarten Transition days to **half days** (9:10am-12:10pm) on the following Fridays:

- **Friday 22 November**
- **Friday 29 November**

We apologise for any inconvenience this may cause.

Future Newsletters

We are trialling a new way of delivering our newsletters to our school community.

Instead of hard copies sent home with families, economically it would be beneficial to deliver our newsletter electronically only. This would continue in the form of emails, Skoolbag and our website. We will continue printing off copies for the community at the Illabo Post Office. If you would still like to receive a printed copy, please contact the school.

Meg

Did you know?

Space Facts

1. In ancient times, constellations of stars were used to keep track of the calendar and for navigation.
2. There are more than 125 billion galaxies in our universe. Our galaxy has about 100-140 billion stars.
3. The collapse of a large dying star leads to the formation of a black hole. It has a very strong gravitational force that sucks everything in, including light!
4. Our solar system is made up of planets, moons, comets, asteroids, minor planets, dust and gas. Everything revolves around the sun.
5. There are three different types of planets:

Terrestrial planets (Mercury, Venus, Earth and Mars), they have very solid, rocky surfaces.

Gas giants (Jupiter, Saturn, Uranus and Neptune) composed mostly of frozen hydrogen and helium.

Dwarf planets (Pluto, Ceres and Eris), smaller round planets that orbit the sun.
